

When a need arises, God provided...and how wonderful it is! The students at E.C. Glass High School have been extremely fortunate to have the volunteer service of a team of retired teachers organized through Parkview United Methodist Mission. Students who had previously failed a semester class during the school year could re-take the course for credit after school over an extended number of weeks. Retired teachers provided instruction and mentoring as students worked to complete the coursework in a timely manner. The 2nd Chance program has benefited hundreds of students but was cut in the 2010-11 school year budget. Through the generosity and goodness of the team at Parkview, students were still able to recover credit, thus avoiding summer school, reducing retentions, and improving the graduation rate. Reverend and Mrs. Willie Butler worked tirelessly with teachers and students to make this a reality when E. C. Glass thought there was no viable alternative. Students took courses last fall and are now completing another set of course this spring. I don't think I have to tell anyone how hard it is to get students to commit to an after-school program (even when it is for their benefit). Sincere gratitude and appreciation is extended to Willie and Pat Butler and their team of retired teachers. We literally could not have done this without you and look forward to our continued alliance in the future.

Betsy Ballowe
Director of Counseling
E.C. Glass High School

Special Thanks to all from a second chance student.

Thanks to all who helped build this program and want to see children succeed in life. Thanks for allowing students like me get back on track and become successful in life. It means a lot to me that people care and went out of their way to help my life in a major way. Thanks for a safe environment and allowing me the opportunity to further my college chances. Thanks for a second chance!!!

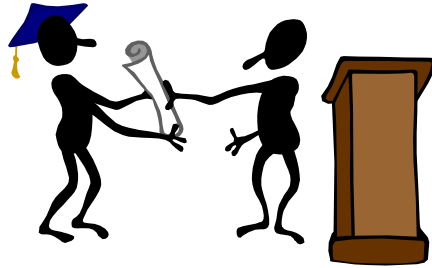

Jodeci Saunders
Senior, E.C. Glass High School

Success!

2nd Chance success Report for the Spring Session

We started with 53 students enrolled.

Passing by subject:

English - 18

Algebra -19

World History I - 3

Biology - 7

47 students completed and passed the courses assigned.

89% passes the Spring Session, Reverend Butler and I thank all of our volunteer teachers for their dedication and patience. Out of 103 students for both sessions 83 passed. Just think eighty-three students will be able to graduate *on time* because **you** cared and shared your gift of teaching.

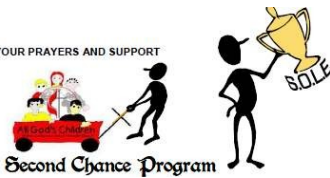

Again, we thank everyone for their participation, and a special thanks to the Parkview Community Mission board for their support and much needed refreshments.

Program Coordinators

Willie and Pat Butler

...

THANK YOU FOR YOUR PRAYERS AND SUPPORT

Second Chance

The Second Chance program is housed at Park View United Methodist Community Mission. We provide academic support in a safe and nurturing environment located a block from E.C. Glass.

Second Chance staff is made up of volunteers: degreed professionals, certified teachers, retired teachers, and local college teachers as well as college students majoring in education.

We follow the Virginia State curriculum approved by Lynchburg City Public Schools and we are dedicated to seeing that no child is left behind.
